The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-13 are rejected under 35 U.S.C. 102(b) as being anticipated by Baker et al. 6378966. Note electronic device 104, frame assembly 102, rails 108, hanger assemblies 112.

The device is slidably received within the rails. Hanger assemblies 112 retract. There is a channel formed within the rails. Two rails are mounted on frame assembly 102. The flat backside of assemblies 112 form a stop portion. The front portion comprises a ramp.

RESPONSE TO REMARKS

Applicant asserts that the hangers in Baker do not engage the rails to support the device on the rails. The Examiner does not agree. Refer to figure 5. Part of the rail assembly 108 includes portion 200 and the hanger assembly 112 engages this section.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
